POWERLIFT, SCISSOR LIFT

PERFECTA 4 DESIGN BATTERY

ARTICLE NO. 923.004.000

The Perfecta 4 Design Battery is a lightweight and portable brake maintenance tool designed for professional use. Thanks to its 18-V Makita battery, it is cordless and offers exceptional flexibility. A continuously adjustable pressure regulator and a universal rubber cone with built-in strainer ensure comfortable and reliable operation.

- **CORDLESS OPERATION WITH AN 18-V MAKITA BATTERY**
- **LIGHTWEIGHT AND PORTABLE**
- **INFINITELY ADJUSTABLE PRESSURE REGULATOR**
- **UNIVERSAL RUBBER CONE WITH BUILT-IN STRAINER**

PERFECTA 20 DESIGN PLUS BATTERY

ARTICLE NO. 924.920.000

The Perfecta 20 Design Plus Battery draws brake fluid directly from the original 20-liter container – no decanting is necessary. The mobile unit allows for convenient one-person operation and, thanks to its 18-V Makita rechargeable battery, offers flexible, cordless use.

- **DIRECT DISPENSING FROM THE ORIGINAL 20-LITER CONTAINER**
- **CONVENIENT ONE-PERSON HANDLING**
- **CORDLESS OPERATION WITH AN 18-V MAKITA BATTERY**
- **INTEGRATED PRE-EXTRACTION SYSTEM AND INFINITELY ADJUSTABLE PRESSURE REGULATOR**

POWERLIFT

ARTICLE NO. 200.104.000

The PowerLift enables fast and back-friendly wheel changes for wheels weighing up to 60 kg. High lifting and lowering speeds, along with ball-bearing rollers and fine-tuning, ensure precise and comfortable mounting. Thanks to two 18-V Makita rechargeable batteries, the mobile PowerLift offers flexible, cordless operation.

- **FOR WHEELS WEIGHING UP TO 60 KG**
- **FAST AND BACK-FRIENDLY WHEEL CHANGES**
- **CORDLESS OPERATION WITH TWO 18-V MAKITA RECHARGEABLE BATTERIES**

SCISSOR LIFT

ARTICLE NO. 600.034.000

The scissor lift creates a flexible and ergonomic workspace for workshops and assembly areas. The large work surface can be adjusted to the required working height, allowing comfortable work on a wide variety of components. Thanks to its mobile design, the table can be used flexibly wherever it is needed.

- **HEIGHT-ADJUSTABLE FOR ERGONOMIC WORK**
- **LARGE, STURDY WORK SURFACE FOR A WIDE RANGE OF USES**
- **CAN BE FLEXIBLY USED IN THE WORKSHOP**

GL GMBH.
MADE IN GERMANY.

As a premium partner to the automotive industry, GL Technics develops and manufactures innovative workshop equipment for professional vehicle service at its facility in Frickenhausen near Nürtingen, Germany.

Driven by a constant spirit of innovation, GL combines technical expertise with practical concepts and long-lasting quality. The result is products that simplify workflows, save time, and enable maximum efficiency in everyday workshop operations.
